MoveActionPlatformCorrutine

```
graph BT; MC[MoveActionPlatformCorrutine] --> MB[MonoBehaviour]; MC --> IA[IActivator];
```

The diagram illustrates a class hierarchy. At the bottom is a grey rectangular box labeled 'MoveActionPlatformCorrutine'. Two blue arrows originate from the top of this box and point upwards to two white rectangular boxes. The box on the left is labeled 'MonoBehaviour' and the box on the right is labeled 'IActivator'. This indicates that 'MoveActionPlatformCorrutine' inherits from or implements both 'MonoBehaviour' and 'IActivator'.
